

# APRIL IS SEXUAL ASSAULT AWARENESS MONTH

"Sexual, racial, gender violence and other forms of discrimination and violence in a culture cannot be eliminated without changing culture."

-- Charlotte Bunch

**\* 3 women are murdered by an intimate partner every day in America!**

**\* 4.8 million American women are physically assaulted every year!**

Violence against women has long been a widespread but little known epidemic affecting local, national and international communities alike. But now people like you and me are speaking out about this serious issue, and by raising awareness, are helping to stop violence against women.

To help states, municipalities, agencies and individuals further the goals of the Violence Against Women Act, the US Department of Justice's Office of Violence Against Women has worked with Congress and the President to establish months designated to raise awareness about the four crimes included in the bill: January is Stalking Awareness Month; February is Dating Violence Awareness & Prevention Month; April is Sexual Assault Awareness Month; and October is Domestic Violence Awareness Month.
